

## Digital Series Timers

Our digital timers help create accuracy and efficiency across a facility. Elapsed Timers count up and down to a maximum of 99 hours, 59 minutes, and 59 seconds. When not in the elapsed timer mode, synchronized time is displayed.

Programmable Countdown Timers are great for use in schools to count down the remaining time between class changes, and in manufacturing facilities to display the amount of time left for breaks and lunch periods. A precise schedule is created with the Event Scheduler Pro Software, initiating the countdown function at scheduled intervals. After the function is complete, the timers automatically display time synchronized to all other clocks in the system.

### Elapsed Timers

14202E	2.5" (6.35cm), 6-digit display
14203E	4" (10.16cm), 6-digit display

### Programmable Countdown Timers

14202P*	2.5" (6.35cm), 6-digit display
14203P*	4" (10.16cm), 6-digit display
14356	Event Scheduler Pro Software

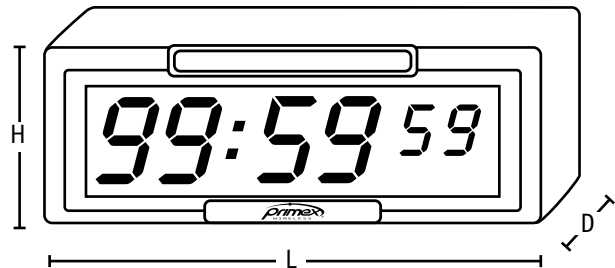

- Add a "G" after the item number for green LED models (Example: 14200EG)
- Add a "-1" after item number for 18" (45.72cm) cord option (Example: 14202E-1 or 14202EG-1)
- \* Requires installation of Event Scheduler Pro Software.

6-Digit Timer

## Digital Timer Specifications:

- Highly visible 2.5" (6.35cm) or 4.0" (10.16cm), 7-segment LED digits
- Power Supply:
  - Input: 120 VAC
  - Cord length: 9' (27.4m)(including plug);
- Physical Size:
  - 2.5"(6.35cm), 6-digit: 13.6875"L (34.76cm) x 5.9375"H (15.08cm) x 2.5"D (6.35cm)
  - 4" (10.16cm), 6-digit: 23.25"L (59.05cm) x 8.0"H (20.32cm) x 3.0"D (7.62cm)
- Weight:
  - 2.5"(6.35cm), 6-digit: 3.2 lbs. (1.45kg)
  - 4" (10.16cm), 6-digit: 6.5 lbs. (2.95kg)
- Operating temperature range: 0°-125°F (-18°-52°C)
- Storage temperature range: -20°-185°F (-29°-85°C)
